

The Refolding Stackers from Output Technology allow you to reliably print and stack large jobs on your PrintCenter 24 or LaserMatrix® Series printer. The stacker's patented technology uses floating helical coils to actively refold continuous forms, paper, or labels after they are printed. This exclusive refolding process permits hours of continuous, unattended printing – a total printing solution for your business. At Output Technology, we are committed to being the price/performance leader.

FEATURES

- Convenient forms removal tray
- Passive stand-by mode
- Accepts forms up to 14 inches long and 9.5 inches wide

BENEFITS

- Continuous, unattended printing
- Keeps form stack intact and provides for easy carrying
- Energy conservation for cost effective operation
- Maximum flexibility

Refolding Stackers

The Output Technology Refolding Stackers for the PrintCenter 24 and LaserMatrix Series printers allow you to reliably print and stack large jobs unattended. The stackers have the capacity to refold from one page to a full box of forms, paper, or labels of various sizes.

In most continuous form laser printers, heated rollers fuse toner to forms and at the same time the rollers iron out perforations in continuous media reducing the ability of the forms to stack unattended.

Output Technology has solved this problem by developing a patented technology that uses floating helical coils to effectively refold forms as they exit the printer, resulting in dependable stacking.

When you combine these efficient stackers with the flexibility of a LaserMatrix printer, you have the perfect solution for all your medium volume, laser quality print jobs.

- Quiet operation
- Simple design for easy integration
- Positions LaserMatrix and other compatible printers* at correct operating height
- Full box capacity
- Convenient forms removal tray
- Accepts forms 6 inches to 14 inches long and 4 inches

PHYSICAL DIMENSIONS

- 20" wide (approx. 508mm)
- 30" high (approx. 762mm)
- 37" deep (approx. 940mm)
- 45 pounds (approx. 20kg)
- Shipping weight 62 lbs

WARRANTY

6 Months depot or return to factory
